

Nissim Ozer, PhD.

Partner, Information and Technology

Professional Background

Precipice Group, Inc. and Precipice Strategies, LLC are a new concept in insurance brokerage and professional management services firms specializing in employee benefits and company performance solutions for small, midsize and large Fortune 500 employers and public sector entities. Strategic solutions include Insurance Brokerage, Strategic Employee Benefits, C-level Business Consulting and Corporate Turnarounds and Restructurings. www.precipicestrategies.com. Precipice is an independent and minority-woman owned business enterprise, certified by the Woman's Business Enterprise National Council (WBENC). WBENC is recognized as the premier certification by global corporations, as well as government employers, in corporate supply chain vendor diversity and initiatives.

Dr. Ozer has a proven track record leading technology companies to development of innovative and industry award winning products with proven ability to manage and drive technology including market vision, strategy, innovations, development, technical sales and support to optimum efficiency. With over 20 years of advanced and diverse engineering experience in the IT industry, He brings considerable expertise in building and engineering organizations from the ground up. Previous experience includes position of Chief Technology Officer for an emerging growth RFID solutions business where he was instrumental in raising Tier 1 venture capital financing and delivered premier RFID hardware and software products to market. Prior to that, Dr. Ozer served as the acting CTO of a multi-million dollar Information Systems company where he recruited IT professionals and established the seed team for a new IT company. He also served as the chair of the 5-M Software/Middleware Work Group within the AIM Global RFID Experts Group. Dr. Ozer's achievements were recognized and he was selected as the "Pro to Know" by Supply Demand Chain magazine, a leading Auto-ID periodical, three years in a row (2005, 2006 and 2007).

Education

Dr. Ozer received his doctorate degree from the School of Engineering at Purdue University. He received a Master of Science degree, School of Engineering, Israel Institute of Technology and Bachelor of Science degree in Mechanical Engineering, Ben-Gurion University, Israel. Dr. Ozer was honored as the overall Emerging Technology RFID category winner at Forrester's 2 Showcase event (2007). He holds several patents and is a frequent panel speaker at many national and international industry conferences.
